## EDUCATION

### BICT (HONORS) - BACHELOR OF INFORMATION AND COMMUNICATION TECHNOLOGY

2020 - Present (Final Year)  
University of Vavuniya

### GRADUATED IN ADVANCED LEVEL (ENGINEERING TECHNOLOGY)

2016-2018  
Norwood National School

## WORK EXPERIENCE

### ASSOCIATE SOFTWARE ENGINEER

NinjaPipe | 2024-Present

After being promoted to Associate Software Engineer, I took on a more comprehensive role encompassing both front-end and back-end development, along with database management system responsibilities. Throughout this journey, I continued to explore and adopt new technologies, refining my skills as a versatile software engineer.

### SOFTWARE ENGINEER INTERN

NinjaPipe | 2023-2024

I was involved in creating a responsive web application for a CRM platform. Throughout the internship, I successfully completed assigned tasks and actively engaged in learning new technologies and concepts relevant to web development.

## PROFILE

Forward-thinking software engineer with a strong commitment to drive technological breakthroughs through carefully designed innovative solutions. With a deep-rooted love for all aspects of technology, I'm dedicated to deliver unique software applications that redefine the user experience and push the boundaries of possibilities in the digital realm. I'm continuously ready to learn new technologies and strive for smart solutions that make a meaningful impact.

## PROJECTS

### TECHE-LEARN

Group Project | 2023

Software engineering is one of our subject module in third year first semester. For that two of us grouped to work under the project. We created an E-learning web application system called TECHE-LEARN using HTML, CSS, Java script, jQuery, Bootstrap, PHP and SQL.

### FOODIE-EXPRESS

Group Project | 2023

Advanced web technology is one of our subject module in third year first semester. For that five of us grouped to work under the project. We created an online food ordering web application system called Foodie-Express using HTML, CSS, Java script, jQuery, Bootstrap, PHP and SQL.

### MEDXPERT

Development Competition | 2023

AIIESEC Moratuwa brought forth an application development drive, during which I collaborated with four peers to successfully construct 'MedXpert' a medical-oriented mobile application, using the Flutter framework.

### BASIC WEB APPLICATION PROJECTS

Individual Projects | 2023

- Age Calculator
- Personal Portfolio
- To-Do List App
- File Convertor
- Music Player
- Online Code Editor
- Weather App
- Chat Application

# SKILLS

## WEB DEVELOPMENT

- React JS, React Native
- Web Forms
- Html, CSS
- Tailwind CSS
- JavaScript
- TypeScript
- Next.js

## FRAMEWORKS

- Angular
- Node JS
- PHP
- .NET

## DATABASE MANAGEMENT SYSTEM

- XAMPP (primarily includes MySQL)
- SQL Management Studio (for working with SQL Server)
- MongoDB (a NoSQL database)
- GraphQL (a query language for APIs)

## PROGRAMMING LANGUAGES

- C
- C++
- C#
- Java
- Python

## VERSION CONTROL AND COLLABORATION TOOLS

- Git and GitHub
- Azure (cloud services platform)
- Jira (project management and issue tracking tool)

## SOFT SKILLS

- Time Management
- Adaptability
- Problem-solving
- Leadership
